Light your home **smarter**

There is more to lighting than illumination. Therefore we created Philips Hue, your personal wireless lighting system. A simple product built around you, designed for your everyday life, your home and all its potential.

Life is what you make of it. So go on. Play around. Explore. Feel the control but let go every once in a while. Turn on your life with Hue.

White and color ambience

Limitless possibilities

Turn your everyday lighting into an extraordinary experience. Play with colours or sync lights with your music, TV and games for an immersive experience.

With Philips Hue you can transform your home and paint your walls with light. You can save your favourite scenes and recall them any time at the tap of a finger.

Turn any room into a dance floor by syncing light to your favourite music. Extend your TV experience or enhance your gaming experience with immersive light effects.

Just download one of the many Apps developed for Philips Hue.

The Philips Hue Smart Switch can be used as a normal wall switch or a remote. You can place it anywhere you want, using screws or the adhesive tape on the back plate of the switch.

Features

- 1 Hue Smart Dimmer Switch can directly control up to 10 lights when not linked to bridge
- Wireless protocol: Zigbee Light Link (ZLL), IEEE 802.15.4
- Signal range: At least 39.3 ft, depending on local circumstances
- Software upgradeable when connected to Hue Bridge

Philips
Hue Ecosystem

Friends of Hue

We collaborate with brands as innovative as we are to make your smart home smarter. Philips Hue works seamlessly with all leading Smart Home Hubs.

amazon alexa

Amazon Alexa

With Amazon Alexa and Philips Hue, you can control the lights in your home with your voice. All you have to do is ask.

Google Home

Google Home

Google Home is a voice activated speaker powered by the Google Assistant. Pair Philips Hue with Google Home and control the lights in your home—using just your voice. Add a Google OnHub router for even more ways to control your lights.

IFTTT

Toggle Hue lights On/Off, When something happens, you'll be the first one to know by connecting IFTTT with Philips Hue. No matter if it's a phone call, e-mail or weather update.

Apple HomeKit

The Apple Home App lets you securely control Philips Hue lights from any iOS device. Use voice-control through Siri, or link Philips Hue to other HomeKit enabled accessories and take control of your home. Discover the features that Apple HomeKit unlocks for your Philips Hue lights.

Samsung SmartThings

Make your home smarter with Philips Hue and Samsung SmartThings. Use SmartThings Routines to turn your Philips Hue lights and other connected devices on/off at the touch of a button.

Some of these systems may not be launched in India formally

Apps Hue loves!

Philips Hue has hundreds of listed Apps by third party developers for both Android and IOS. These Apps enable you to extract more from your Hue.

Hue Power India

Hue Power ensures that the Hue lights retain their previous state of color and brightness without any user intervention after any disruption in power.

Hue Disco

Create a dance floor, let lights groove to your music.

hueManic

Let the selected Hue lights start dancing to hueManic.

Sleep as Android

Track your sleep and wake up gently with natural sounds in optimal sleep phase for pleasant mornings and days.

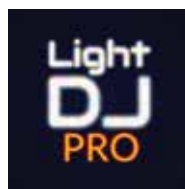

Hue Day Light

Let the lights turn on when the Sun sets.

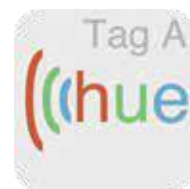

Huedini

To create relaxing light effects with Hue.

Light DJ PRO

Connects to Philips Hue to interact with your lights in tons of different ways. Use the App as a personal music visualizer, or program the App to create your own customized light shows.

Tag A Hue

Use this App to associate a specific bulb or group of bulbs with an NFC tag, and when that tag is scanned, the App will detect whether those bulbs are on or off and toggle them accordingly.
